Note: An investor should consider the investment objectives, risks, and charges and expenses of BGX (also, the "Fund") carefully before investing. The prospectus contains this and other information about the Fund and may be obtained at www.blackstone.com/bgx. The prospectus should be read carefully before investing.

*As a percentage of Managed Assets. "Managed Assets" means the total assets of the Fund (including any borrowing for investment purposes) minus the sum of the Fund's accrued liabilities (other than Fund liabilities incurred for the express purpose of creating leverage).

**As a percentage of Net Assets.

Data is as of 5/31/21 unless otherwise indicated. Employee count and AUM as of 3/31/21. Financial data is unaudited. **Past performance is historical and not a guarantee of future results.**

Footnotes

- (1) Numbers may not sum to 100.00% due to rounding. The Fund's Cash and Other represents net cash and other assets and liabilities, which includes amounts payable for investments purchased but not yet settled and amounts receivable for investments sold but not yet settled. The Fund uses funds from its leverage program to settle amounts payable for investments purchased, but such amounts are not reflected in the Fund's net cash. Therefore, the amounts payable for investments purchased but not yet settled may exceed the amount of cash on hand at period end.
- (2) Represents annualized distribution rate using May monthly dividend of \$0.081/share and market price/share as of 5/31/21. The Fund declares a set of monthly distributions each quarter in amounts closely tied to its recent average monthly net income. As a result, Blackstone Credit expects that the monthly distribution amounts for the Fund will vary quarter-to-quarter.
- (3) The Fund utilizes leverage as part of its investment strategy and currently has borrowings under a credit facility as well as mandatory redeemable preferred shares. The Fund's leverage under the credit facility without the use of mandatory redeemable preferred shares was 31.60% as of 5/31/21.
- (4) Figures exclude any equity investments in the Fund.
- (5) Loan durations are based on the actual remaining time until LIBOR is reset for each individual loan.

Certain countries have been susceptible to epidemics, most recently COVID-19, which may be designated as pandemics by world health authorities. The outbreak of such epidemics, together with any resulting restrictions on travel or quarantines imposed, has had and will continue to have a negative impact on the economy and business activity globally (including in the countries in which the Funds invest), and thereby is expected to adversely affect the performance of the Funds' Investments. Furthermore, the rapid development of epidemics could preclude prediction as to their ultimate adverse impact on economic and market conditions, and, as a result, presents material uncertainty and risk with respect to the Funds and the performance of their Investments.
