On January 30, 2015, the Fund paid a distribution on its common stock of \$0.09 per share to shareholders of record at the close of business on January 23, 2015. In accordance with generally accepted accounting principles (“GAAP”), the Fund estimates that 71.08% of that distribution is attributable to current fiscal year net investment income, 0.58% is attributable to realized short-term capital gains, and the remaining portion is paid from return of paid-in capital surplus.

As such, all or a portion of this distribution may be reportable as taxable income on your 2015 federal income tax return. The final tax character of any distribution declared in 2015 will be determined in January 2016 and reported to you on IRS Form 1099-DIV.
