**BLACKSTONE / GSO LONG-SHORT CREDIT INCOME FUND  
DECLARES MONTHLY DISTRIBUTIONS OF \$0.108 PER SHARE**

New York, New York – Blackstone / GSO Long-Short Credit Income Fund (the “Fund”) (NYSE: **BGX**) announced the declaration of monthly distributions of \$0.108 per common share, payable on the dates noted below. Based on the Fund’s initial public offering price of \$20.00 per share and current share price of \$18.12 (as of its close on August 22, 2013), the distributions represent an annualized yield of 6.48% and 7.15% respectively.

BGX’s strategy allows the manager to allocate to both floating rate loans and high yield bonds, while maintaining a core portfolio of 70% secured loans. With an asset composition of just over 75% floating rate loans, we believe that the Fund is well positioned to take advantage of a potential rise in interest rates.

The following dates apply to the distributions declared:

Ex-Date: September 18, 2013  
Record Date: September 20, 2013  
Payable Date: September 30, 2013  
Per Share Amount: \$0.108

A portion of each distribution may be treated as paid from sources other than net investment income, including but not limited to short-term capital gain, long-term capital gain or return of capital. The final determination of the source of these distributions will be made after the Fund’s year end.

The amounts and sources of distributions reported are only estimates and are not provided for tax reporting purposes. The actual amounts and sources of the amounts for tax reporting purposes will depend upon the Fund’s investment experience during the remainder of its fiscal year and may be subject to changes based
